Claims 1-3 and 10-13 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant's arguments and amendments filed 5/27/06, and request for reconsideration of the guidelines for statutory subject matter are persuasive. The allowed claims provide a library of structured data elements which are embodied on a computer readable media. The structured data elements comprise a series of linked files comprising specific data attributes. The linked files comprise chemical reaction data, structural variation data, data regarding combinations of syntheses, associated neighborhood properties, and core structures. These linked files are searchable, and comprise the virtual library. This subject matter meets the guidelines for statutory subject matter, and is not non-functional descriptive material. The art of record does not provide for these specific linked data structures as described in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
